Docket No. 98N-1265 1559 '99 MAR 24 P1:47
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I use natural compound medicines because I had a hysteromy at age of 32. Due to breast cancer in my family, I have used the natural over the synthetic medicine. This medicine relieves my symptoms and makes it possible for me to live normally throughout the month. The medicine alleviates symptoms, like sleeplessness and low libido. I strongly oppose this draft because I feel very strongly about natural medicine, also due to their being a high link between synthetic and breast cancer. I have not found a place in N.Y., the state of my residence, which produces the natural medicines I need.
